Methodology

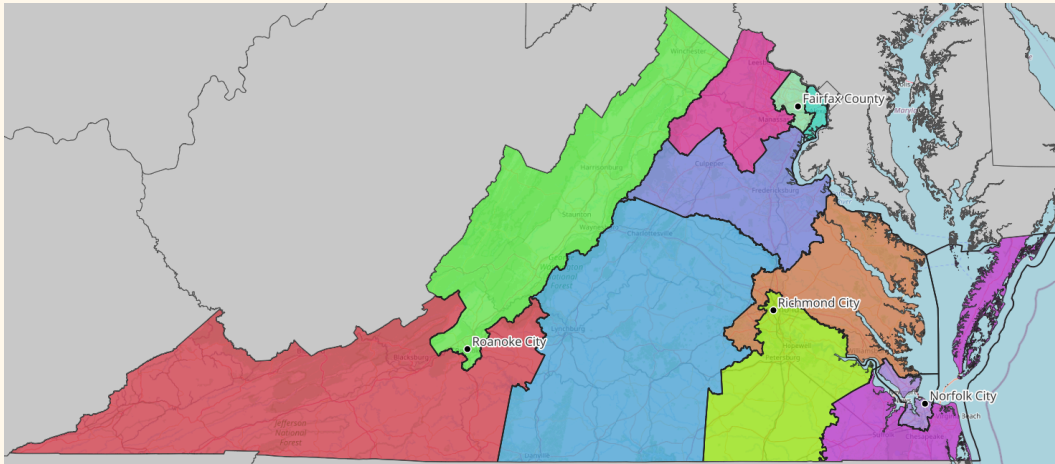

This survey was fielded from April 10-13, 2026, among 707 registered likely special election voters in Virginia. Respondents were chosen from a voter file provided by i360. Text messages containing a link to an online survey designed by the State Navigate Polling Team and hosted on the SurveyMonkey platform were sent to respondents by AllianceForge. The survey was weighted by age, race, gender, education, race by education, region, and party identification, with benchmarks derived from the voter file, Catalist, AP

VoteCast, Gallup Quarterly National Party ID, and data provided by the U.S. Census Bureau. The margin of error is 3.7% for a 95% confidence interval. The survey was designed and conducted by State Navigate. This survey was not sponsored by any party, candidate, or candidate's committee.
